

# EASTER GARLAND

---

## *You'll need:*

greeting card  
(the springier the better)

1/4" ribbon

scissors

ruler

white glue

---

## **STEP 1**

Cut 4" x 3" rectangles from the covers of greeting cards. (Make sure you have one for each letter in your holiday message.) Cut out a few fun springtime designs to use as accents between words in your message.

---

## **STEP 2**

Cut one letter from each rectangle. Hint: Use blocky, capital letters for easier cutting. You can make cutting templates for letters on your computer; just type out your message and increase the size of the type, then print to use as a guide for your cutting.

---

## **STEP 3**

Arrange your cut letters face down. (Make sure they'll read correctly when you turn them over.) Glue the ribbon across the very top of the back sides of the letters. Add your springtime designs between the words.

---

## **STEP 4**

Once the glue dries, hang the garland wherever you like.
